**News release: Revolutionary new Ink Jet Printable
Aluminum.....AlumaJet™.
Cleveland, Ohio United States of America**

Horizons' Imaging Systems Group has developed a totally new kind of aluminum designed for use with your ink jet printer. We are pleased to offer you the following information and a special package of samples for your review.

Horizons is an innovative aluminum (i.e. aluminium) media manufacturer in the United States with a 50 year history of patents and developments in printable and markable aluminum technology. Our products are exclusive and offer unique and valuable characteristics.

AlumaMARK™ is one of our newest products, an aluminum sheet product that can prints beautiful color right from an ink jet printer, much like printing a document Here's what AlumaJet offers to you and your customers:

- Rich Color on Real Metal in one easy step.

Enclosed with your test samples are a price list, suggestions for laser settings, and a calibration print to show you what different laser settings looks like on AlumaMark.

We look forward to your evaluation and in working with you to advance this solution in the market. Any one of our team members are here to help you in any way. Just call or e-mail use and we'll get right back to you.

Thank you.

Warm Regards,

Randy Uveges
