**AlumaJet® - Print Full-Color, Photo-Quality Images Directly onto Real Metal with a Standard Inkjet Printer.**

AlumaJet is anodized aluminum that has been specially developed so that you may print brilliant, full-color, high-resolution images directly to the metal using standard ink-jet printers. **No special inks, transfer papers or heat presses are required!** Application include Plaques, Awards, Customized Dry Erase Boards, Signage, Diploma Reproductions, Newspaper and Magazine Article Reproductions, Labels and Name Badges among many others.

AlumaJet parts can be produced on site, at your facility, when and where they are needed; or they may be purchased from a range of independent converters who are expert, equipped and ready for your call.

**Applications:**
- Certificate Reproductions
- Name Badges
- Property Tags
- Wayfinding Signs
- Interior Signage
- Labels
- Photographs
- Memorabilia
- Newspaper Reproductions
- Equipment Labels

Additional Processing Information

Finishes:

- Matte Silver
- Satin Silver

Specifications

Sizes: 8.5” x 11”, A4, A3 and 20” x 24”

Thicknesses: .005” and .012”

Available with 3M 467 adhesive backing or without.

*Sizes, thicknesses and adhesive may not be available for all finishes. Check price list for availability. If color consistency is important, we recommend purchasing material from the same lot.

- Recommended for Indoor Use
- Full Color
- Starter Systems Available

Printer Compatibility

Ink jet printers with a “J” printer path can accept the thinnest (.005”) AlumaJet sheets. A straight-through printer path is required for the thicker sheets (.012” and .025”). Call us for a printer recommendation.

Standard dye and pigment based ink jet inks are suitable.

Printer Compatibility Diagram:

- .005” OK
- All Thicknesses OK
- Will Not Work

“J” Path

Straight Through

180° Turn

AlumaJet works with any water-based ink jet printer (99% of all desktop printers) that have a “J” or “straight through” path. You can view our recommended printer list on our website or call for recommendations.
